

For Immediate Release

Swire Properties Business Performance Remains Resilient

Sound financial footing to fuel HK\$100 billion investment plan over the next decade

Summary of 2022 Interim Results

- Slight decrease in recurring underlying profit from property investment, reflecting lower retail rental income from Hong Kong and higher operating costs, partly offset by higher retail rental income from the Chinese Mainland.
- Retail sales and footfall in Hong Kong affected by COVID-19 related social distancing measures. Signs of recovery were seen following the gradual relaxation of restrictions starting from mid-April, and the introduction of the HKSAR Government's consumption voucher scheme.
- Office business operated in a soft market but achieved high occupancy and stable rental income. Pre-leasing of Two Taikoo Place is gaining momentum, with a pre-leasing commitment of close to 50%.
- Shopping malls in the Chinese Mainland were affected to varying degrees by the resurgence of COVID-19 cases. However, an increase in gross rental income was recorded, as a result of contributions from the newly opened Taikoo Li Sanlitun West and Taikoo Li Qiantan, as well as strong local demand and retail sales earlier in the year.
- Hotels are expanding their hotel management arm. Two new hotels in Shenzhen and Tokyo will be operated under the hotel management agreement model within third-party owned developments.
- Backed by a sound financial footing, the Company's HK\$100 billion investment plan is progressing well with new projects in Hong Kong and the Chinese Mainland.

11 August 2022, Hong Kong – Swire Properties Limited today announced its interim results for 2022. Recurring underlying profit from property investment decreased slightly in the first half of 2022. This mainly reflected lower retail rental income from Hong Kong and higher operating costs, partly offset by higher retail rental income from the Chinese Mainland.

Underlying profit attributable to shareholders decreased by HK\$373 million from HK\$4,513 million in the first half of 2021 to HK\$4,140 million in the first half of 2022, primarily due to the reduction in profit from the sale of car parking spaces at the Taikoo Shing residential development in Hong Kong.

In Hong Kong, a weaker office market reflected subdued demand and a decline in business activity, particularly during the fifth COVID-19 wave in the first quarter of 2022. However, leasing activity has recovered with the gradual easing of COVID-19 restrictions. Positive reversions were achieved at some Taikoo Place properties, and the overall office portfolio remained resilient with high occupancy. There has been a trend for prospective tenants to upgrade their premises and prioritise sustainability and wellness. Taikoo Place, particularly with the two newest office towers, One Taikoo Place and Two Taikoo Place, is well-positioned to benefit from this flight-to-quality. The pre-leasing of Two Taikoo Place is making steady progress, with a commitment rate approaching 50%.

During the first quarter of 2022, Hong Kong's retail market was severely disrupted by COVID-19 related social distancing measures, including dining restrictions and mandatory closures of certain outlets and premises. Tenants' sales and footfall at the Company's malls decreased significantly during this period. However, some recovery was seen starting from mid-April, following the gradual relaxation of restrictions and the introduction of the HKSAR Government's consumption voucher scheme.

In the Chinese Mainland, retail sales began the year strongly. However, the Company's malls were affected to varying degrees by the resurgence of COVID-19 cases and related preventive measures, particularly in Shanghai and Beijing, in the second quarter of 2022. Despite this, an increase in rental income for the first half of 2022 was recorded, reflecting contributions from the newly opened Taikoo Li Sanlitun West and Taikoo Li Qiantan, as well as strong local demand and retail sales earlier in the year.

A small recurring underlying loss from property trading activities was recorded in the first half of 2022, as a result of the sales and marketing expenses at the residential project, EIGHT STAR STREET, in Hong Kong. The hotel business in Hong Kong and the Chinese Mainland continued to suffer from COVID-19 and its associated travel restrictions.

The board declared a first interim dividend for 2022 of HK\$0.32 per share. This represents an increase of 3% from the first interim dividend paid in 2021.

"The first six months of 2022 were challenging, with the continuing impact of COVID-19 on our business. However, 2022 is also proving to be a year of exciting expansion for Swire Properties. We have focused on realising opportunities from the HK\$100 billion investment plan which we announced in March," said Mr Guy Bradley, Chairman of Swire Properties.

Exciting Project Pipeline Under HK\$100 Billion Investment Plan

In March 2022, the Company announced that it would invest a total of HK\$100 billion in its core markets over a 10-year period. HK\$30 billion of the investment plan has been allocated to Hong Kong, specifically to continue to build out its investments in Taikoo Place and Pacific Place.

While the current phase of the HK\$15 billion Taikoo Place redevelopment is at its final stage, the acquisition of the Zung Fu Industrial Building and the submission of compulsory sale applications for a number of buildings in

Quarry Bay have put the Company in a favourable position to continue its placemaking strategy and to strengthen Taikoo Place's position as a global business district.

The Company also intends to expand the Pacific Place portfolio over the next few years, leveraging Admiralty's growing connectivity and importance as a major transportation hub. The new Grade A office tower opposite Three Pacific Place is progressing well, and will add approximately 218,000 square feet of additional office space to the Company's wider Pacific Place portfolio.

Swire Properties has also accelerated the pace of its growth in the Chinese Mainland. The Company secured its first major investment in Xi'an earlier this year, a Taikoo Li concept which will be retail-led and specially designed for the Small Wild Goose Pagoda historical and cultural zone.

A number of new residential projects are in the pipeline in Hong Kong, including developments in Wong Chuk Hang, Wan Chai and Chai Wan. The Company also won the tender for a residential site at 269 Queen's Road East in Wan Chai recently, one of the few residential sites on Hong Kong Island to be included in the HKSAR Government's land sale programme this year.

Swire Properties has also embarked on an active expansion strategy for its hotel management business, with a focus on extending its two distinctive hotel brands into other cities through hotel management agreements. It will be expanding in Shenzhen with a new House hotel in the Shenzhen Bay Area, which is targeted to open in 2025. The Company will also bring a new House hotel to Tokyo, marking the debut of the House Collective brand outside China. The hotel will be located within the iconic Shibuya district and will introduce the brand's distinctive design and exceptional service to a new market.

Business Prospects

In Hong Kong, demand for office space is expected to be weak in the second half of 2022, reflecting increased vacancy rates and new supply. However, the flight-to-quality is expected to continue. Assuming a gradual reopening of the international border and the border with the Chinese Mainland and improvements in the financial markets, the demand for Grade-A office space, particularly from financial institutions and professional services companies, should increase.

On the retail side, it is anticipated that overall traffic and retail sales will continue to improve in the Hong Kong malls, assuming the progressive relaxation of social distancing measures continues. The second phase of the HKSAR Government's consumption voucher scheme will also help to boost retail sales. The Company will continue to offer shopping incentives in its retail malls to maintain positive momentum. Nevertheless, a full recovery of the retail market depends on a full reopening of the border with the Chinese Mainland.

Despite the resurgence of COVID-19 in some of the cities in which it operates in the Chinese Mainland, the Company expects demand for retail space to be stable and to recover steadily over the second half of this year. Strong demand for space from retailers of luxury brands in Guangzhou and Chengdu, and stable demand for space in Shanghai from retailers of luxury fashion, cosmetics and lifestyle brands, and from operators of food and beverage outlets, is also expected. In Beijing, retail sales and demand for retail space are expected to recover steadily in the second half of 2022.

The outlook for the Company's hotels remains challenging, with recovery dependent on the full reopening of the border with the Chinese Mainland combined with the relaxation of travel restrictions.

"Despite the continued challenges posed by COVID-19, we are bullish about our outlook over the medium to long-term. Inevitably COVID-19 will continue to affect our business, but this is a short-term issue which we are well able to withstand, thanks to a healthy balance sheet and strong fundamentals," said Mr Bradley.

“2022 is a significant year, as we celebrate our 50th anniversary under the banner of “ORIGINAL. ALWAYS.” This year is a celebration of our people, our commitment to creativity, the communities which we serve and the places which we have helped to transform.”

CHAIRMAN'S STATEMENT

Dear shareholders,

The first six months of 2022 were challenging, with the continuing impact of COVID-19 on our business. However, 2022 is also proving to be a year of exciting expansion for Swire Properties. We have focused on realising opportunities from the HK\$100 billion investment plan which we announced in March.

2022 is a significant year, as we celebrate our 50th anniversary under the banner of "ORIGINAL. ALWAYS.". This year is a celebration of our people, our commitment to creativity, the communities which we serve and the places which we have helped to transform.

Reflecting on our history, to the period when Swire first set down roots in Quarry Bay with the Taikoo Dockyard and the Taikoo Sugar Refinery, it gives me great pride to see how far we have come in establishing Taikoo Place as a global business district. And our vision continues. Our investment pipeline represents an ambitious growth plan for Swire Properties in Hong Kong, the Chinese Mainland and South East Asia.

This year we also celebrated the 25th anniversary of the establishment of the Hong Kong Special Administrative Region. Hong Kong is our home city, and we remain fully committed to supporting the city in maintaining its global competitiveness. With the expansion of our business and planned future investments, we are keen to play our part in reinforcing Hong Kong's status as an international financial centre.

Profits and Sustained Dividend Growth

Our reported profit attributable to shareholders in the first half of 2022 was HK\$4,319 million, compared with HK\$1,984 million in the first half of 2021.

Underlying profit attributable to shareholders decreased by HK\$373 million from HK\$4,513 million in the first half of 2021 to HK\$4,140 million in the first half of 2022, primarily due to the reduction in profit from the sale of car parking spaces at the Taikoo Shing residential development in Hong Kong.

We declared a first interim dividend for 2022 of HK\$0.32 per share. This represents an increase of 3% from the first interim dividend paid in 2021. The first interim dividend for 2022 will be paid on Thursday, 6th October 2022 to shareholders registered at the close of business on the record date, being Friday, 9th September 2022. Shares of the Company will be traded ex-dividend from Wednesday, 7th September 2022.

Our policy is to deliver sustainable growth in dividends and to pay out approximately half of our underlying profit in ordinary dividends over time.

Strategic Placemaking Masterplan

We have allocated HK\$30 billion of our HK\$100 billion investment fund to Hong Kong, specifically to continue to build out our investments in Taikoo Place and Pacific Place. I am pleased to report that we continue to make good progress with the redevelopment of Taikoo Place, with our newest Grade A office tower, Two Taikoo Place, set to be completed later this year.

Whilst the overall office market has remained soft due to the effects of COVID-19, there has been a trend for prospective tenants to upgrade their premises and prioritise sustainability and wellness. Taikoo Place, particularly with the two newest office towers, One Taikoo Place and Two Taikoo Place, is well-positioned to benefit from this flight-to-quality. Our focus on designing advanced, flexible spaces integrated with top-tier amenities and green features has put Taikoo Place firmly on the map as a premium business address.

To that end, we remain committed to building on our investment in Taikoo Place. While the current phase of the HK\$15 billion Taikoo Place redevelopment is at its final stage, the acquisition of the Zung Fu Industrial Building and the submission of compulsory sale applications for a number of buildings in Quarry Bay have put us in a favourable position to continue our placemaking strategy and to strengthen Taikoo Place's position as a global business district.

Our office portfolio in Hong Kong continues to demonstrate its resilience. In accordance with our masterplan for Pacific Place, we intend to expand the portfolio over the next few years, leveraging Admiralty's growing connectivity and importance as a major transportation hub. We are making good progress on our new Grade A office tower opposite Three Pacific Place, and will add approximately 218,000 square feet of additional office space to our wider Pacific Place portfolio.

Whilst there was a recovery in the Hong Kong's retail market in late 2021, this was halted by the fifth COVID-19 wave in January 2022. However, we continued to maintain almost full occupancy in our malls, and the market has been showing signs of recovery, boosted by the HKSAR Government's consumption voucher scheme and the release of pent-up local demand. We will continue to invest in our malls and launch innovative initiatives to keep up the positive momentum.

The residential market in Hong Kong has remained stable, with resilient demand. Our latest project, EIGHT STAR STREET, has been achieving satisfactory pre-sales, and we have embarked on an ambitious pipeline of new developments to be completed over the next four years. We were also pleased to win the tender for a residential site at 269 Queen's Road East in Wan Chai recently, one of the few residential sites on Hong Kong Island to be included in the HKSAR Government's land sale programme this year.

In South East Asia, we broke ground on our Savyavasa development in Jakarta earlier this year. We are also making good progress on our two minority investments, The River and Empire City, in Ho Chi Minh City. With HK\$20 billion allocated for strategic investments, including residential trading, we remain opportunistic and keen to leverage our premium residential brand in Hong Kong and South East Asia. We are looking to build a presence in four core cities in South East Asia – Singapore, Bangkok, Jakarta and Ho Chi Minh City, all of which feature a middle-class looking for higher-end residential properties. We have teams on the ground who are looking for the right partners and prime sites for future investment and development.

Whilst our hotel business is still being adversely affected by COVID-19, we are making good progress on the expansion of our hotel management business within non-owned developments in new cities. We have plans for two new, third party owned hotels under The House Collective brand in Shenzhen and Tokyo.

Future Growth in the Chinese Mainland

The first six months of 2022 have been challenging for some of our developments in the Chinese Mainland, amidst tightened restrictions due to the resurgence of COVID-19. Despite this, we recorded an increase in rental income for the first half of 2022, reflecting contributions from the newly opened Taikoo Li Sanlitun West and Taikoo Li Qiantan, as well as strong local demand and retail sales earlier in the year.

Thanks to our established Taikoo Hui and Taikoo Li brands, our rate of growth in the Chinese Mainland has been exciting, with six projects now in operation and our seventh mixed-use development, Taikoo Li Xi'an, announced earlier this year. We have allocated 50% of our HK\$100 billion investment fund to investment in the Chinese Mainland over the next 10 years.

We are very excited to be bringing a Taikoo Li development to the ancient city of Xi'an. This marks our first investment in the city, and the large-scale project is in a very rare location adjacent to a UNESCO World Heritage Site. Securing this investment speaks volumes for the trust we have built up in the Chinese Mainland in a very short time, and local respect for the Swire Properties brand.

Looking at the broader region, a key focus for our future investment is the Greater Bay Area, given its rapid pace of growth and its strategic importance to Hong Kong. Last year, we announced our plans to develop a potential commercial project in the Julong Bay Area of Guangzhou, in a stunning natural location on the riverfront. More recently, we announced a new, luxury (third party owned) hotel in Shenzhen Bay which will be managed by Swire Hotels. This will be our fifth House under the award-winning House Collective brand.

Last year, we formed a joint venture with Shanghai Jing'an Real Estate group, the owner of Zhangyuan, to revitalise the historic shikumen compound in Shanghai, which is close to HKRI Taikoo Hui. Despite the resurgence of COVID-19 in Shanghai, we have been actively pushing ahead with the project, and we target to launch the first phase of Zhangyuan in the fourth quarter of 2022. In Beijing, we are making headway on INDIGO Phase Two, which is part of our masterplan to transform INDIGO into one of the best performing office locations in the capital.

Our success story in the Chinese Mainland has rested in large part on the trust we have built

up with our local government partners and the communities in which we operate. Swire Properties' brand continues to grow in the region, as we demonstrate a strong track record of delivering exceptional projects and transforming places which are a source of local pride in their home cities.

Conclusion

Despite the continued challenges posed by COVID-19, we are bullish about our outlook over the medium to long-term. Inevitably COVID-19 will continue to affect our business, but this is a short-term issue which we are well able to withstand, thanks to a healthy balance sheet and strong fundamentals.

As we look to the future, we will continue to use our HK\$100 billion investment fund to reinforce our core assets and pursue new investment opportunities. It remains our goal to deliver mid-single-digit annual dividend growth.

This is an exciting time for our business, and I would like to thank our shareholders, tenants, business partners and the communities in which we operate for your ongoing support. Most of all, I wish to thank the team at Swire Properties for their passion and commitment to our long-term vision and growth. The Company's five decades of success are a testament to their creativity and hard work.

CHIEF EXECUTIVE'S STATEMENT

Dear shareholders,

We continue to operate in a difficult environment, with significant challenges posed by COVID-19 in the first half of 2022. However, our business remained resilient, and we recorded a solid performance from our investment portfolio in Hong Kong and the Chinese Mainland.

Despite short-term setbacks, the Company remains on a sound financial footing. Our asset management strategy over the last five years has strengthened our balance sheet, and with our HK\$100 billion investment plan, we are actively managing a pipeline of new projects in our core markets, which we intend to implement over a 10-year period.

2022 is a landmark year for Swire Properties, as we celebrate 50 years of transformative placemaking and investment. As a homegrown Hong Kong company, we are proud to celebrate this milestone in the same year that Hong Kong marks the 25th anniversary of its return to China.

Looking ahead, we remain fully committed to scaling up our investment in Hong Kong and the Chinese Mainland, as well as in South East Asia. Our leadership in sustainable development and the digital transformation of our business also remain priorities as we focus on our long-term growth.

2022 Interim Results at a Glance

Our underlying profit decreased by HK\$373 million to HK\$4,140 million in the first half of 2022, principally reflecting the reduction in profit from the sale of non-core assets in Hong Kong. Recurring underlying profit in the first half of 2022 was HK\$3,643 million, compared with HK\$3,716 million in the first half of 2021.

Recurring underlying profit from property investment decreased slightly in the first half of 2022. This mainly reflected lower retail rental income from Hong Kong and higher operating

costs, partly offset by higher retail rental income from the Chinese Mainland.

In Hong Kong, a weaker office market reflected subdued demand and a decline in business activity, particularly during the fifth COVID-19 wave in the first quarter of 2022. However, leasing activity has recovered with the gradual easing of COVID-19 restrictions. Positive reversions were achieved at some of our Taikoo Place properties, and our overall office portfolio remained resilient, with high occupancy.

During the first quarter of 2022, Hong Kong's retail market was severely disrupted by COVID-19 related social distancing measures including dining restrictions and mandatory closures of certain outlets and premises. Tenants' sales and footfall at our malls decreased significantly during this period. However, we began to see some recovery starting from mid-April, following the gradual relaxation of restrictions and the introduction of the HKSAR Government's consumption voucher scheme.

In the Chinese Mainland, retail sales began the year strongly. However, our malls were affected to varying degrees by the resurgence of COVID-19 cases and related preventive measures, particularly in Shanghai and Beijing, in the second quarter of 2022. Our office portfolio in the Chinese Mainland proved resilient despite COVID-19 related controls in the cities where we operate.

We recorded a small recurring underlying loss from our property trading activities in the first half of 2022, as a result of the sales and marketing expenses at our residential project, EIGHT STAR STREET, in Hong Kong. Our hotel business in Hong Kong and the Chinese Mainland continued to suffer from COVID-19 and its associated travel restrictions.

Our Future Prospects

In Hong Kong, demand for office space is expected to be weak in the second half of 2022, reflecting increased vacancy rates and new

supply. However, the flight-to-quality is expected to continue. Assuming a gradual reopening of the international border and the border with the Chinese Mainland and improvements in the financial markets, the demand for Grade-A office space, particularly from financial institutions and professional services companies, should increase.

Taikoo Place is ever evolving, and with projects like Two Taikoo Place, we are developing new office buildings of high specifications which represent the future of work. The pre-leasing of Two Taikoo Place is making steady progress, with a commitment rate approaching 50%. As our first anchor tenant, Julius Baer, a Swiss private bank, will lease 92,000 square feet of office space. Additional strategic tenants have been secured, including one of the biggest office lease transactions on Hong Kong Island in recent years, with an anchor tenant for over 150,000 square feet of office space.

We are also continuing the eastward expansion of our Pacific Place portfolio in Hong Kong. We are making good progress on our new office tower opposite Three Pacific Place, which will add approximately 218,000 square feet of additional office space to our portfolio.

In June, we were delighted to win a land tender for a residential site at 269 Queen's Road East in Wan Chai. This is a prime location with excellent potential for a new premium residential product in the district.

On the retail side, we anticipate that overall traffic and retail sales will continue to improve in our Hong Kong malls, assuming the progressive relaxation of social distancing measures continues. The second phase of the HKSAR Government's consumption voucher scheme will also help to boost retail sales. We continue to offer shopping incentives in our retail malls to maintain positive momentum. Nevertheless, a full recovery of the retail market depends on full reopening of the border with the Chinese Mainland.

Despite the resurgence of COVID-19 in some of the cities in which we operate in the Chinese Mainland, we expect demand for retail space

to be stable and to recover steadily over the second half of this year. We also expect strong demand for space from retailers of luxury brands in Guangzhou and Chengdu, and stable demand for space in Shanghai from retailers of luxury fashion, cosmetics and lifestyle brands, and from operators of food and beverage outlets. In Beijing, retail sales and demand for retail space are expected to recover steadily in the second half of 2022.

In Beijing, Shanghai and Guangzhou, office demand and market sentiment are expected to recover in the second half of 2022 assuming COVID-19 restrictions continue to be relaxed. However, the continued new supply of office space in Shanghai and Guangzhou, particularly in emerging decentralised submarkets, is exerting downward pressure on rents.

With our new investments, we have accelerated the pace of our growth in the Chinese Mainland. We secured our first major investment in Xi'an earlier this year, a Taikoo Li concept which will be retail-led and specially designed for the Small Wild Goose Pagoda historical and cultural zone. The Greater Bay Area holds enormous development potential, and we are exploring opportunities to bring our Taikoo Li and Taikoo Hui brands to Shenzhen.

The outlook for our hotels remains challenging, with recovery dependent on the full reopening of the border with the Chinese Mainland combined with the relaxation of travel restrictions. However, we have embarked on an active expansion strategy for our hotel management business, with a focus on extending our two distinctive hotel brands into other cities through hotel management agreements. We will be expanding in Shenzhen with our new House hotel in the Shenzhen Bay Area, which is targeted to open in 2025. The hotel will be within a key commercial hub, and will help meet the growing demand for luxury accommodation in Shenzhen.

We are also excited to be bringing a new House hotel to Tokyo, marking the debut of the House Collective brand outside China. The hotel will be located within the iconic Shibuya district

and will introduce the brand's distinctive design and exceptional service to a new market.

Our premium residential brand has opened the door for new opportunities in Hong Kong and South East Asia. We are making good headway on a pipeline of new projects in Hong Kong, including developments in Wong Chuk Hang, Wan Chai and Chai Wan. Our investments in Jakarta and Ho Chi Minh City are also on track, whilst we continue to explore new opportunities in South East Asia.

In Miami, retail sales continue to grow, thanks to strong domestic demand.

Leadership in Sustainability and Digital Innovation

Since launching our Sustainable Development 2030 Strategy in 2016, we have demonstrated a deep level of commitment and ambition to be a sustainable development leader in our industry. We ranked number one in Asia and seventh in our industry globally in the Dow Jones Sustainability World Index last year, and we are building on these accomplishments with very aggressive targets intended to help reach the global 1.5°C decarbonisation goal.

These targets are widespread across our portfolios, and we see this as the right time to fully engage with our tenants about sustainability. Tenants increasingly have their own ESG commitments, and we are providing tools and support to help them achieve their goals.

We launched the Green Performance Pledge (GPP) earlier this year, a tenant-landlord collaboration where we will work with tenants to optimise their fit-out and renovations, gather data and identify opportunities in their operations to help them continuously improve their sustainability performance. The GPP will also feature a sustainable office furniture service, where tenants can access premium and re-used furniture products, with an aim to contribute to Hong Kong's circular economy. This is in addition to our Green Kitchen Initiative, where our teams work closely with

our retail food and beverage tenants during the pre-fit out process, to reduce their energy and water usage and improve their waste management practices.

Our leadership work in sustainability is also reflected in our digital transformation. Since 2020, our new ventures department has helped to accelerate the adoption of emerging technologies for our business, and manages a US\$50 million corporate venture capital fund to invest in promising technology start-ups around the world. By engaging with thought leaders and scouting innovative new technology, we aim to make prudent financial and strategic investments with a view to helping our business grow.

Celebrating 50 Years of Success

The festivities for our "ORIGINAL. ALWAYS." 50th anniversary campaign will continue throughout 2022. We are very proud to be celebrating this milestone with our teams and the many stakeholders who have played a crucial role in our success.

We wanted to celebrate arts and culture in its varied forms this year, and worked closely with long-term partner Art Basel, as well as the Victoria & Albert Museum, on a special roving exhibition around our Hong Kong and Chinese Mainland malls.

We also commissioned a 50th Anniversary Art NFT Collection, working with 10 international artists on a series inspired by our "Originality" theme, which will be available later this year as free art drops.

We recognise the importance of supporting younger generations. As part of our anniversary celebrations, we joined with the Hong Kong Palace Museum to sponsor the two-year Bi-city Youth Cultural Leadership Programme. The programme will enable young people in Hong Kong and Beijing to connect and exchange cultural ideas and innovative thinking, with the purpose of nurturing a new generation of exceptional leaders.

We also launched the 2022 edition of the Swire Properties Placemaking Academy, where a team of students is again participating in a six-month apprenticeship to make our White Christmas Street Fair a more sustainable event for the wider community. Our previous Academy alumni have already gone on to win awards, and we expect this next cohort to benefit greatly from our masterclasses and mentorship over the next six months.

We are very proud to continue our wide-ranging volunteer work under our community ambassador programme. A new community space called “Quarryside” on the Quarry Bay harbourfront area is on track to open in early 2023, and we are providing consultancy support for the design, construction and operational stages. The project is managed by St. James’ Settlement with sponsorship of HK\$15 million from Swire Trust. Once completed, Quarryside will be an exciting new venue for activities and events, which we envision will create closer community ties within our home district.

Conclusion

We continue to experience significant challenges to our business as COVID-19 develops, particularly in the retail and hospitality sectors. However, we have gained ground in all areas of our business, and our financial strength has ensured that we can continue to develop our existing portfolios over the long term while investing in new opportunities.

We are very proud to mark 50 years of creating transformational places, and we are grateful for the support that we have received from our shareholders, our business partners and the community at large. We were also honoured to be recognised by Randstad again this year, who named Swire Properties as the most attractive company to work for in Hong Kong in 2022.

Our biggest source of pride is our people, who have weathered the storm over recent years. They are our biggest asset and I thank them for their dedication and commitment over the past 50 years.

Additional information is provided in the following section to reconcile reported and underlying profit attributable to the Company's shareholders. These reconciling items principally adjust for the net valuation movements on investment properties and the associated deferred tax in the Chinese Mainland and the U.S.A., and for other deferred tax provisions in relation to investment properties. In Hong Kong and the U.S.A., the Group's investment properties recorded net property valuation gains of HK\$810 million and HK\$182 million respectively in the first half of 2022. In the Chinese Mainland, investment properties recorded net property valuation losses of HK\$237 million. There is a further adjustment to remove the effect of the movement in the fair value of the liability in respect of a put option in favour of the owner of a non-controlling interest. Amortisation of right-of-use assets classified as investment properties is charged to underlying profit.

Notes:

- (a) This represents the net valuation movements as shown in the Group's consolidated statement of profit or loss and the Group's share of net valuation movements of joint venture companies.
- (b) This represents deferred tax movements on the Group's investment properties, plus the Group's share of deferred tax movements on investment properties held by joint venture companies. These comprise deferred tax on valuation movements on investment properties in the Chinese Mainland and the U.S.A., and deferred tax provisions made in respect of investment properties held for the long term where it is considered that the liability will not reverse for some considerable time. It also includes certain tax adjustments arising from transfers of investment properties within the Group.
- (c) Prior to the implementation of HKAS 40, changes in the fair value of investment properties were recorded in the revaluation reserve rather than the consolidated statement of profit or loss. On sale, the valuation gains/(losses) were transferred from the revaluation reserve to the consolidated statement of profit or loss.
- (d) Prior to the implementation of HKAS 40, no depreciation was charged on investment properties occupied by the Group.
- (e) The value of the put option in favour of the owner of a non-controlling interest is calculated principally by reference to the estimated fair value of the portion of the underlying investment property in which the owner of the non-controlling interest is interested.
- (f) Under HKAS 40, hotel properties are stated in the accounts at cost less accumulated depreciation and any provision for impairment losses, rather than at fair value. If HKAS 40 did not apply, wholly-owned and joint venture hotel properties held for the long term as part of mixed-use property developments would be accounted for as investment properties. Accordingly, any increase or decrease in their values would be recorded in the revaluation reserve rather than in the consolidated statement of profit or loss.
- (g) HKFRS 16 amends the definition of investment property under HKAS 40 to include properties held by lessees as right-of-use assets to earn rentals or for capital appreciation or both, and requires the Group to account for such right-of-use assets at their fair value. The amortisation of such right-of-use assets is charged to underlying profit.

Underlying Profit in the First Half of 2022	4,140

Our reported profit attributable to shareholders in the first half of 2022 was HK\$4,319 million, compared to a profit of HK\$1,984 million in the first half of 2021.

Underlying profit attributable to shareholders (which principally adjusts for changes in valuation of investment properties) decreased by HK\$373 million from HK\$4,513 million in the first half of 2021 to HK\$4,140 million in the first half of 2022. The decrease principally reflected the reduction in profit from the sale of car parking spaces in Hong Kong.

Recurring underlying profit in the first half of 2022 (which excludes the profit from divestment) was HK\$3,643 million, compared with HK\$3,716 million in the first half of 2021.

Recurring underlying profit from property investment decreased slightly in the first half of 2022. This mainly reflected lower retail rental income from Hong Kong (the reduction reflecting in part the amortisation of rental concessions granted in previous years) and higher operating costs, partly offset by higher retail rental income from the Chinese Mainland. In Hong Kong, despite a weak market due to the effects of COVID-19, the office portfolio was resilient, with high occupancy. The retail portfolio was adversely affected by the fifth wave of COVID-19 particularly during the first quarter of 2022. However, footfall and tenants' sales recovered in May and June, following the gradual relaxation of social distancing measures and the introduction of the HKSAR Government's consumption voucher scheme. In the Chinese Mainland, our six shopping malls were affected to varying degrees by COVID-19 resurgences. Shopping malls in Shanghai were closed in April and May, and gradually reopened thereafter. Retail sales in Beijing were also adversely affected by COVID-19 resurgences in May and June. The small underlying loss from property trading in the first half of 2022 primarily resulted from sales and marketing expenses at EIGHT STAR STREET in Hong Kong. Losses at hotels increased as hotels in Hong Kong and the Chinese Mainland continued to suffer from COVID-19 and associated travel restrictions.

Key Developments

In January 2022, the sale of the property located at Fort Lauderdale, Florida was completed.

In March 2022, a consortium in which the Group has a 70% interest successfully acquired (via a government land tender) the land use rights in respect of land located at the Small Wild Goose Pagoda historical and cultural zone in the Beilin district of Xi'an for a consideration of approximately RMB2,575 million. The land is expected to be developed into a retail-led mixed-use development comprising retail and cultural facilities in addition to a hotel, serviced residences and business apartments.

In March 2022, the Group obtained full ownership of Zung Fu Industrial Building in Quarry Bay, Hong Kong. Subject to the Group having successfully bid in the compulsory sale of the adjacent Wah Ha Factory Building, the two sites are intended to be redeveloped for office and other commercial uses.

In March 2022, the Group acquired an additional 6.67% interest in the Citygate development. As a result, the Group's interest in the Citygate development has increased from 20% to 26.67%.

In June 2022, the Group acquired (via a government land tender) a plot of land located at 269 Queen's Road East in Wan Chai, Hong Kong for a consideration of approximately HK\$1,962 million. The plot of land is expected to be developed primarily for residential use with an aggregate gross floor area of approximately 116,200 square feet.

In July and August 2022, Swire Hotels announced plans for two new, third party owned hotels under the House Collective brand in Tokyo and Shenzhen. The two hotels will be managed by Swire Hotels.

Portfolio Overview

The aggregate gross floor area ("GFA") attributable to the Group at 30th June 2022 was approximately 32.8 million square feet.

Of the aggregate GFA attributable to the Group, approximately 29.1 million square feet are investment properties and hotels, comprising completed investment properties and hotels of approximately 22.9 million square feet and investment properties under development or held for future development of approximately 6.2 million square feet. In Hong Kong, the investment property and hotel portfolio comprises approximately 13.9 million square feet attributable to the Group of primarily Grade-A office and retail premises, hotels, serviced apartments and other luxury residential accommodation. In the Chinese Mainland, the Group has interests in seven major commercial developments in prime locations in Beijing, Guangzhou, Chengdu, Shanghai and Xi'an. These developments are expected to comprise approximately 13.1 million square feet of attributable GFA when they are all completed. Of this, 9.6 million square feet has already been completed. Outside Hong Kong and the Chinese Mainland, the investment property portfolio comprises the Brickell City Centre development in Miami, U.S.A.

The tables below illustrate the GFA (or expected GFA) attributable to the Group of the investment property and hotel portfolio at 30th June 2022.

Investment Properties – Hong Kong

Offices

Overview

The completed office portfolio in Hong Kong comprises an aggregate of 9.0 million square feet of space on a 100% basis. Total attributable gross rental income from our office properties in Hong Kong was HK\$3,011 million in the first half of 2022. At 30th June 2022, our office properties, completed and under development, in Hong Kong were valued at HK\$181,139 million. Of this amount, the Group's attributable interest was HK\$171,406 million.

(2) Others comprise One Citygate, Berkshire House (50% owned), 8 Queen's Road East (wholly-owned), 28 Hennessy Road (wholly-owned) and South Island Place (50% owned).

(3) In March 2022, the Group acquired an additional 6.67% interest in the Citygate development. The Group's interest in One Citygate has increased from 20% to 26.67% as a result of the transaction.

Gross rental income from the Hong Kong office portfolio in the first half of 2022 was HK\$2,843 million, a decrease of 1% from the same period in 2021. The office market was weak, with eight consecutive quarters of negative net absorption, reflecting subdued demand and a decline in business activity, particularly during the fifth wave of COVID-19 in the first quarter of 2022. However, leasing activity started to pick up following the gradual easing of COVID-19 restrictions in mid-April. Despite downward pressure on rents, positive reversions were achieved at some Taikoo Place properties for tenants seeking quality office space. Our overall office portfolio was resilient, with high occupancy. At 30th June 2022, the office portfolio was 96% let.

The table below shows the mix of tenants of the office properties by the principal nature of their businesses (based on internal classifications) as a percentage of the office area at 30th June 2022.

Office Area by Tenants' Businesses (At 30th June 2022)

Banking/Finance/Securities/Investment	29.0%
Trading	17.1%
Professional services (Accounting/Legal/Management consulting/Corporate secretarial)	14.7%
Insurance	10.1%
Technology/Media/Telecoms	9.6%
Real estate/Construction/Property development/Architecture	8.0%
Advertising and public relations	1.4%
Others	10.1%

At 30th June 2022, the top ten office tenants (based on attributable gross rental income in the six months ended 30th June 2022) together occupied approximately 24% of the Group's total attributable office area in Hong Kong.

Hong Kong Office Market Outlook

The office market in Hong Kong is expected to be weak in the second half of 2022, reflecting increased vacancy rates and new supply. Increasing competition from Central and Kowloon East will also exert downward pressure on rents. However, it is expected that the flight-to-quality will benefit us as prospective tenants upgrade their premises and place a higher value on sustainability and wellness in the workplace. Assuming a gradual reopening of the international border and the border with the Chinese Mainland and improvements in the financial markets, the demand for Grade-A office space, particularly from financial institutions and professional services companies, should increase.

The pre-leasing of Two Taikoo Place has been making steady progress, with a commitment rate approaching 50%. In addition to Julius Baer, more strategic tenants have been secured, including one of the biggest office lease transactions on Hong Kong Island in recent years, with an anchor tenant for over 150,000 square feet of office space.

The following table shows the percentage of attributable gross rental income from the office properties in Hong Kong, for the month ended 30th June 2022, derived from leases expiring in the periods with no committed renewals or new lettings. Tenancies accounting for approximately 3.7% of the attributable gross rental income in the month of June 2022 are due to expire in the second half of 2022, with tenancies accounting for a further 17.8% of such rental income due to expire in 2023.

Office Lease Expiry Profile (At 30th June 2022)

Retail

Overview

The completed retail portfolio in Hong Kong comprises an aggregate of 3.2 million square feet of space on a 100% basis. Total attributable gross rental income from our retail properties in Hong Kong was HK\$1,058 million in the first half of 2022. At 30th June 2022, our retail properties in Hong Kong were valued at HK\$54,926 million. Of this amount, the Group's attributable interest was HK\$46,053 million.

The portfolio principally consists of The Mall at Pacific Place, Cityplaza at Taikoo Shing and Citygate Outlets at Tung Chung. The Mall and Cityplaza are wholly-owned by the Group. During the period, the Group increased its interest in the Citygate development (comprising Citygate Outlets) from 20% to 26.67%. The malls are managed by the Group.

Hong Kong retail market recovered in late 2021, but the recovery was halted when the fifth wave of COVID-19 hit in January this year. During the first quarter of 2022, the retail market was severely disrupted by social distancing measures including dining restrictions and mandatory closures of certain outlets and premises. Both tenants' sales and footfall at our malls decreased significantly during this period. There was very little inbound tourism. Leasing activity was low. However, local consumption started to show signs of recovery in the middle of the second quarter of 2022 due to pent-up demand, following the gradual relaxation of social distancing measures, and the introduction of the HKSAR Government's consumption voucher scheme. During the first half

as a whole, retail sales decreased by 2%, 5% and 2% respectively at The Mall, Pacific Place, Cityplaza and Citygate Outlets.

Hong Kong Retail Portfolio

	GFA (sq. ft.) (100% Basis)	Occupancy (at 30th June 2022)	Attributable Interest

Cityplaza	1,096,898	100%	100%
Citygate Outlets ⁽¹⁾	803,582	100%	26.67%
Others ^{(1), (2)}	549,558	100%	26.67%/60%/100%
Total	3,161,220		

(1) In March 2022, the Group acquired an additional 6.67% interest in the Citygate development. The Group's interest in Citygate Outlets and Tung Chung Crescent neighbourhood shops increased from 20% to 26.67% as a result of the transaction.

(2) Others largely comprise Taikoo Shing neighbourhood shops and StarCrest retail premises (which are wholly-owned), Island Place retail premises (60% owned) and Tung Chung Crescent neighbourhood shops.

Gross rental income from the retail portfolio in Hong Kong was HK\$1,002 million in the first half of 2022, a decrease of 10% compared to the same period in 2021. The decrease reflected the impact of the fifth wave of COVID-19 and, in part, the amortisation of rental concessions given in previous years.

Rental concessions (which were amortised over the remaining lease terms) were given for specific periods on a case-by-case basis to support tenants. In the first half of 2022, rental concessions (on a cash basis) reduced as compared to the same period in 2021. On a cash concession basis, attributable gross rental income decreased by 2% during the period.

The malls were almost fully let throughout the period.

The table below shows the mix of the tenants of the retail properties by the principal nature of their businesses (based on internal classifications) as a percentage of the retail area at 30th June 2022.

**Retail Area by Tenants' Businesses
(At 30th June 2022)**

Food and beverages	20.2%
Department stores	15.2%
Supermarkets	3.8%
Cinemas	4.2%
Jewellery and watches	1.9%
Ice rink	0.9%
Others	24.5%

At 30th June 2022, the top ten retail tenants (based on attributable gross rental income in the six months ended 30th June 2022) together occupied approximately 26% of the Group's total attributable retail area in Hong Kong.

Hong Kong Retail Market Outlook

It is expected that overall footfall and tenants' sales will continue to improve assuming progressive relaxation of COVID-19 related social distancing measures. The second phase of the HKSAR Government's consumption voucher distribution will help to boost retail sales. We are also offering shopping incentives at our malls to support local consumption and maintain positive momentum. Nevertheless, a full recovery of the retail market depends on the full reopening of the border.

The following table shows the percentage of attributable gross rental income from the retail properties in Hong Kong, for the month ended 30th June 2022, derived from leases expiring in the periods with no committed renewals or new lettings. Tenancies accounting for approximately 6.5% of the attributable gross rental income in the month of June 2022 are due to expire in the second half of 2022, with tenancies accounting for a further 28.3% of such rental income due to expire in 2023.

Residential

The completed residential portfolio comprises Pacific Place Apartments at Pacific Place, EAST Residences in Quarry Bay, STAR STUDIOS in Wan Chai and a number of luxury houses on Hong Kong Island and Lantau Island, with an aggregate GFA of approximately 0.6 million square feet. The occupancy rate at the residential portfolio was approximately 70% at 30th June 2022. Demand for our residential investment properties was primarily local, and was affected by COVID-19.

Investment Properties Under Development**Two Taikoo Place**

Two Taikoo Place, the second phase of the Taikoo Place redevelopment, is an office tower with an aggregate GFA of approximately one million square feet. The development has been built to the highest sustainability standards, achieving pre-certified platinum ratings for LEED, WELL and BEAM Plus. Interior fit out works are in progress. Completion is expected later this year.

46-56 Queen's Road East

Planning permission to develop this site in Wan Chai for office use was obtained in 2018. The site area is approximately 14,400 square feet. The proposed development has an aggregate GFA of approximately 218,000 square feet. Superstructure works are in progress. Completion is expected in 2023.

Others**Wah Ha Factory Building, No. 8 Shipyard Lane and Zung Fu Industrial Building, No. 1067 King's Road**

In 2018, the Group submitted compulsory sale applications in respect of these two sites in Quarry Bay. In March 2022, the Group acquired the remaining interests in Zung Fu Industrial Building and obtained full ownership of the site. Subject to the Group having successfully bid in the compulsory sale of the Wah Ha Factory Building site, the two sites are intended to be redeveloped for office and other commercial uses with an aggregate GFA of approximately 779,000 square feet.

983-987A King's Road and 16-94 Pan Hoi Street

In 2018, a joint venture company in which the Group holds a 50% interest submitted a compulsory sale application in respect of this site in Quarry Bay. Subject to the joint venture company having successfully bid in the compulsory sale and in accordance with applicable town planning controls, it is expected that the site can be redeveloped for residential and retail uses with a GFA of approximately 440,000 square feet.

9-39 Hoi Wan Street and 33-41 Tong Chong Street

In June 2022, the Group submitted a compulsory sale application in respect of this site in Quarry Bay. The gross site area is approximately 20,060 square feet. The development plan is under review, and is subject to the Group having successfully bid in the compulsory sale.

Taikoo Shing Car Parking Spaces

Since November 2020, the Group has offered 2,530 car parking spaces in the Taikoo Shing residential development in Hong Kong for sale. 1,405 of these car parking spaces had been sold at 9th August 2022. Sales of 1,366 car parking spaces have been recognised, 164 of them in the first half of 2022. Sales of 39 car parking spaces are expected to be recognised in the second half of 2022.

Gross rental income from the Group's investment property portfolio in the Chinese Mainland was HK\$1,784 million in the first half of 2022, 3% higher than in the same period in 2021, reflecting the contribution from the newly opened Taikoo Li Sanlitun West and the strong performance of the retail market in the first quarter of the year before COVID-19 resurgences in the Chinese Mainland.

Retail

The completed retail portfolio in the Chinese Mainland comprises an aggregate of 7.9 million square feet of space, 5.4 million square feet of which is attributable to the Group. Total attributable gross rental income from our retail properties in the Chinese Mainland grew by 9%, to HK\$2,305 million, in the first half of 2022. Disregarding amortised rental concessions and changes in the value of the Renminbi, total attributable gross rental income increased by 7%. At 30th June 2022, our completed retail properties in the Chinese Mainland were valued at HK\$66,857 million. Of this amount, the Group's attributable interest was HK\$48,881 million.

The portfolio consists of Taikoo Li Sanlitun in Beijing and Hui Fang in Guangzhou, which are wholly-owned by the Group, Taikoo Hui in Guangzhou, which is 97% owned, and INDIGO in Beijing, Sino-Ocean Taikoo Li Chengdu, HKRI Taikoo Hui and Taikoo Li Qiantan in Shanghai, each of which is 50% owned.

(1) Including Taikoo Li Sanlitun West, which officially opened in December 2021.

(2) Including space allocated to prospective tenants who have signed letters of intent.

In the Chinese Mainland, retail sales began the year strongly. There were also contributions from the newly opened Taikoo Li Sanlitun West and Taikoo Li Qiantan. However, our six shopping malls were affected to varying degrees in the second quarter of 2022 by the resurgence of COVID-19 and related preventive measures in cities where we operate, particularly in Shanghai and Beijing. In Shanghai, retail shops were closed in April and May, and gradually reopened thereafter. Retail sales in Beijing were adversely affected by COVID-19 resurgences in May and June. Our retail sales (excluding Taikoo Li Sanlitun West and Taikoo Li Qiantan) on an attributable basis in the Chinese Mainland in the first half of 2022 decreased by 19%. Retail sales at Taikoo Li Sanlitun in Beijing, Taikoo Hui in Guangzhou, INDIGO in Beijing, Sino-Ocean Taikoo Li Chengdu and HKRI Taikoo Hui in Shanghai decreased by 26%, 7%, 25%, 8% and 53% respectively in the first half of 2022. National retail sales decreased by 1% in the first half of 2022 compared to the same period in 2021.

The Group's gross rental income from retail properties in the Chinese Mainland increased by 3%, to HK\$1,586 million, in the first half of 2022. Rental concessions (which were amortised over the remaining lease terms) were given for specific periods on a case-by-case basis to support tenants. Disregarding amortised rental concessions and changes in the value of the Renminbi, gross rental income increased by 1%.

The table below shows the mix of the tenants of the retail properties by the principal nature of their businesses (based on internal classifications) as a percentage of the retail area at 30th June 2022.

Retail Area by Tenants' Businesses
(At 30th June 2022)

Fashion and accessories	42.8%
Food and beverages	25.4%

Supermarkets	4.5%
Jewellery and watches	2.5%
Others	19.5%

At 30th June 2022, the top ten retail tenants (based on attributable gross rental income in the six months ended 30th June 2022) together occupied approximately 18% of the Group's total attributable retail area in the Chinese Mainland.

Gross rental income at Taikoo Li Sanlitun in Beijing increased in the first half of 2022, despite the disruption arising from the closure of retail shops and suspension of dine-in services during May and certain days in June. This reflected the contribution from the newly opened Taikoo Li Sanlitun West and improvements to the tenant mix. Retail sales decreased by 26%. The occupancy rate including Taikoo Li Sanlitun West was 98% at 30th June 2022.

In the first half of 2022, gross rental income and retail sales at Taikoo Hui in Guangzhou decreased by 2% and 7% respectively as compared with the first half of 2021, reflecting the impact of COVID-19. The mall was 99% occupied at 30th June 2022. Improvements to the tenant mix were made.

The mall at INDIGO in Beijing was 100% occupied at 30th June 2022. Retail sales decreased by 25% in the first half of 2022. Improvements were made to the tenant mix.

Gross rental income at Sino-Ocean Taikoo Li Chengdu was approximately the same in the first half of 2022 as in the same period in 2021. Retail sales decreased by 8%. At 30th June 2022, the occupancy rate was 96%.

Gross rental income at HKRI Taikoo Hui in Shanghai was approximately the same in the first half of 2022 as in the same period in 2021. Retail sales increased in the first two months of 2022, benefitting from improvements to the tenant mix and increased footfall until a COVID-19 resurgence in March. Retail shops were closed in April and May, and gradually reopened thereafter. Retail sales decreased by 53%. The occupancy rate was 98% at 30th June 2022.

Taikoo Li Qiantan in Shanghai opened on 30th September 2021. Retail sales and footfall were strong until a COVID-19 resurgence in March. Operations were gradually resumed from late May. As at 30th June 2022, tenants had committed (including by way of letters of intent) to take up 91% of the retail space. 68% of the lettable retail space was open.

Chinese Mainland Retail Market Outlook

Demand for retail space is expected to be stable and to recover steadily in the second half of 2022. In Guangzhou and Chengdu, demand for retail space from retailers of luxury brands is expected to be strong. In Shanghai, demand for retail space from retailers of luxury fashion, cosmetics and lifestyle brands, and from operators of food and beverage outlets, is expected to be stable. In Beijing, retail sales and demand for retail space are expected to recover steadily.

The following table shows the percentage of attributable gross rental income from the retail properties in the Chinese Mainland, for the month ended 30th June 2022, derived from leases expiring in the periods with no committed renewals or new lettings. Tenancies accounting for approximately 15.1% of the attributable gross rental income in the month of June 2022 are due to expire in the second half of 2022, with tenancies accounting for a further 30% of such rental income due to expire in 2023.

Offices

The completed office portfolio in the Chinese Mainland comprises an aggregate of 4.1 million square feet of space, 2.9 million square feet of which is attributable to the Group. Total attributable gross rental income from our office properties in the Chinese Mainland increased by 5% to HK\$451 million in the first half of 2022. At 30th June 2022, our completed office properties in the Chinese Mainland were valued at HK\$21,845 million. Of this amount, the Group's attributable interest was HK\$13,628 million.

The portfolio comprises Taikoo Hui in Guangzhou, which is 97% owned, and INDIGO in Beijing and HKRI Taikoo Hui in Shanghai, each of which is 50% owned.

The Group's gross rental income from office properties in the Chinese Mainland increased by 1% to HK\$191 million in the first half of 2022. Office demand in Shanghai in the first half of 2022 was adversely affected by the COVID-19 resurgence. Demand for office space in Beijing in the first half of 2022 was stable as supply was limited in the core areas. Demand for office space in Guangzhou was weak and new supply adversely affected rents.

The table below shows the mix of the tenants of the office properties by the principal nature of their businesses (based on internal classifications) as a percentage of the office area at 30th June 2022.

At 30th June 2022, the top ten office tenants (based on attributable gross rental income in the six months ended 30th June 2022) together occupied approximately 47% of the Group's total attributable office area in the Chinese Mainland.

The occupancy rates at the office towers of Taikoo Hui in Guangzhou, ONE INDIGO in Beijing and the office towers of HKRI Taikoo Hui in Shanghai were 94%, 95% and 100% respectively at 30th June 2022.

Chinese Mainland Office Market Outlook

In Beijing, Shanghai and Guangzhou, office demand and market sentiment are expected to recover in the second half of 2022 assuming COVID-19 restrictions continue to be relaxed. However, the continued new supply of

office space in Shanghai and Guangzhou, particularly in emerging decentralised submarkets, is exerting downward pressure on rents.

The following table shows the percentage of attributable gross rental income from the office properties in the Chinese Mainland, for the month ended 30th June 2022, derived from leases expiring in the periods with no committed renewals or new lettings. Tenancies accounting for approximately 4.4% of the attributable gross rental income in the month of June 2022 are due to expire in the second half of 2022, with tenancies accounting for a further 37.4% of such rental income due to expire in 2023.

Serviced Apartments

There are 24 serviced apartments at the Mandarin Oriental in Taikoo Hui Guangzhou, 42 serviced apartments at The Temple House in Sino-Ocean Taikoo Li Chengdu and 102 serviced apartments at The Middle House Residences in HKRI Taikoo Hui Shanghai.

The performance of the serviced apartments in the first half of 2022 was adversely affected by COVID-19. Occupancy at the Mandarin Oriental in Guangzhou, The Temple House in Chengdu and The Middle House Residences in Shanghai was 92%, 90% and 66% respectively at 30th June 2022.

Chinese Mainland Serviced Apartments Market Outlook

The performance of the serviced apartments is expected to recover gradually in the second half of 2022, subject to COVID-19 conditions.

Investment Properties Under Development

INDIGO Phase Two, Beijing

INDIGO Phase Two is an extension of the existing INDIGO development with a GFA of approximately four million square feet. Jointly developed with the Sino-Ocean group, INDIGO Phase Two will be an office-led mixed-use development and is planned to be completed in two phases, in 2025 and 2026, respectively. Piling works have been completed. Foundation works are in progress. The Group has a 35% interest in INDIGO Phase Two.

Taikoo Li Xi'an

In March 2022, a consortium in which the Group has a 70% interest acquired (via a government land tender) the land use rights in respect of land located at the Small Wild Goose Pagoda historical and cultural zone in the Beilin district of Xi'an. With a site area of approximately 1.3 million square feet, the land is expected to be developed as Taikoo Li Xi'an, a retail-led mixed-use development comprising retail and cultural facilities in addition to a hotel, serviced residences and business apartments. The estimated GFA is approximately three million square feet (above ground and underground), subject to further planning. The project is expected to be completed in 2025. The consortium is a collaboration with Xi'an Cheng Huan Cultural Investment and Development Co., Ltd.

The table below illustrates the expected attributable area of the completed property portfolio in the Chinese Mainland.

Zhangyuan, Shanghai

In 2021, the Group formed a joint venture management company with Shanghai Jing'an Real Estate (Group) Co., Ltd. This company, which the Group has a 60% interest, is engaged in the revitalisation and management of the Zhangyuan shikumen compound in the Jing'an district of Shanghai. When the revitalisation is completed, the compound will have a GFA of 645,840 square feet above ground and 753,480 square feet underground, of which an underground area of 197,000 square feet will be for commercial use. There are 43 shikumen blocks with about 170 two or three-storey houses. There are connections to three metro lines and to HKRI Taikoo Hui. Construction and renovation were in progress at 30th June 2022. The revitalisation is planned to be completed and opened in two phases, in the fourth quarter of 2022 and in 2025. The Group does not have an ownership interest in the compound.

Overview

Brickell City Centre, Miami

Brickell City Centre is an urban mixed-use development in the Brickell financial district of Miami, U.S.A. It has a site area of 504,017 square feet (approximately 11.6 acres).

The first phase of the Brickell City Centre development comprises a shopping centre, two office towers (Two and Three Brickell City Centre, which were sold in 2020), a hotel with serviced apartments (EAST Miami, which was sold in 2021) managed by Swire Hotels and two residential towers (Reach and Rise) developed for sale. All the residential units at Reach and Rise have been sold.

The Group owns 62.93% of the shopping centre at the Brickell City Centre development. The remaining interest in the shopping centre is owned by Simon Property Group (25%) and Bal Harbour Shops (12.07%). Bal Harbour Shops has an option, exercisable from February 2020, to sell its interest to the Group.

The shopping centre was 93% leased (including by way of letters of intent) at 30th June 2022. Retail sales in the first half of 2022 increased by 36%.

The second phase of the Brickell City Centre development, to be known as One Brickell City Centre, is being planned. It will be a commercial development connecting to the first phase of Brickell City Centre.

Miami Market Outlook

In Miami, retail sales are expected to grow, thanks to strong domestic demand.

Valuation of Investment Properties

The portfolio of investment properties was valued at 30th June 2022 on the basis of market value (95% by value having been valued by Cushman & Wakefield Limited and 2% by value having been valued by another independent valuer). The amount of this valuation was HK\$271,009 million, compared to HK\$267,815 million at 31st December 2021.

The increase in the valuation of the investment property portfolio primarily reflected new investment in the Chinese Mainland and an increase in the valuation of the car parking spaces and properties held for development in Hong Kong, partly offset by a decrease in the valuation of the office investment properties in Hong Kong and foreign exchange translation losses in respect of the investment properties in the Chinese Mainland.

Under HKAS 40, hotel properties are not accounted for as investment properties. The hotel buildings are included within property, plant and equipment. The leasehold land is included within right-of-use assets. Both are recorded at cost less accumulated depreciation or amortisation and any provision for impairment.

Hong Kong

EIGHT STAR STREET, Wan Chai

EIGHT STAR STREET at 8 Star Street, Wan Chai is a residential building (with retail outlets on the lowest two levels) of approximately 34,000 square feet. The occupation permit has been obtained and the units will be handed over to the purchasers later this year. 28 out of 37 units had been pre-sold at 9th August 2022.

Wong Chuk Hang Station Package Four Property Development

A joint venture formed by the Group, Kerry Properties Limited and Sino Land Company Limited is undertaking a residential development in Wong Chuk Hang in Hong Kong. The development will comprise two residential towers with an aggregate GFA of approximately 638,000 square feet and about 800 residential units. Superstructure works are in progress. Subject to getting necessary approvals, pre-sales are expected to start by the end of 2022. The development is expected to be completed in 2024. The Group has a 25% interest in the joint venture.

Chai Wan Inland Lot No. 178

In 2021, a project company held as to 80% by the Group and as to 20% by China Motor Bus Company, Limited completed a land exchange with the HKSAR Government in respect of a plot of land in Chai Wan, Hong Kong. The plot of land is expected to be redeveloped into a residential complex with an aggregate GFA of approximately 694,000 square feet. Foundation works are in progress. The development is expected to be completed in 2025.

269 Queen's Road East, Wan Chai

In June 2022, the Group successfully acquired (via a government land tender) a plot of land located at 269 Queen's Road East in Wan Chai. The plot of land is expected to be developed for residential use with an aggregate gross floor area of approximately 116,200 square feet.

Indonesia

In 2019, a joint venture between the Group and Jakarta Setiabudi Internasional Group completed the acquisition of a plot of land in South Jakarta, Indonesia. The land is being developed into a residential development with an aggregate GFA of approximately 1,123,000 square feet. Basement works are under construction. The development is expected to comprise over 400 residential units and to be completed in 2024. The Group has a 50% interest in the joint venture. Pre-sale is in progress.

Vietnam

In 2020, the Group agreed with City Garden Joint Stock Company to develop The River, a luxury residential property in Ho Chi Minh City, Vietnam. The development comprises 525 luxury apartments in three towers. The Group has an effective 20% interest in the development. Approximately 90% of the units had been pre-sold at 9th August 2022.

In 2021, the Group made a minority investment in Empire City, a residential-led mixed-use development (with residential, retail, office, hotel and serviced apartment components) in Ho Chi Minh City, Vietnam. The development is under construction and is expected to be completed in phases up to 2027. The Group invested in the development through an agreement with Gaw Capital Partners, an existing participant in the development. Over 45% of the residential units had been pre-sold at 9th August 2022.

Outlook

In Hong Kong, demand for residential accommodation is expected to be resilient in the medium and long term.

With urbanisation, a growing middle class and a limited supply of luxury residential properties, the residential markets in Jakarta, Indonesia and Ho Chi Minh City, Vietnam are expected to be stable.

Estate Management

The Group manages 19 residential estates which it has developed. It also manages OPUS HONG KONG, a residential property in Hong Kong which the Group redeveloped for Swire Pacific Limited. The management services include day to day assistance for occupants, management, maintenance, cleaning, security and renovation of common areas and facilities. The Group places great emphasis on maintaining good relationships with occupants.

Hotels

Overview

The Group owns and manages (through Swire Hotels) hotels in Hong Kong, the Chinese Mainland and the U.S.A. The House Collective, comprising The Upper House in Hong Kong, The Opposite House in Beijing, The Temple House in Chengdu and The Middle House in Shanghai, is a group of small and distinctive luxury hotels. There are EAST hotels in Hong Kong, Beijing and Miami. In October 2021, EAST Miami ceased to be owned by the Group. It continues to be managed by Swire Hotels. The Group also has interests in non-managed hotels in Hong Kong, Guangzhou, Shanghai and Miami.

Our managed hotels in Hong Kong and Chinese Mainland continued to be affected by COVID-19. The hotels in the U.S.A. performed well. Our managed hotels (including restaurants and taking account of central costs) recorded an operating loss before depreciation of HK\$74 million in the first half of 2022, compared with an operating profit before depreciation of HK\$4 million in the first half of 2021.

Hong Kong

The Group wholly-owns and manages (through Swire Hotels) two hotels in Hong Kong, The Upper House, a 117-room luxury hotel at Pacific Place, and EAST Hong Kong, a 331-room hotel in Taikoo Shing.

The Group has a 20% interest in each of the JW Marriott, Conrad Hong Kong and Island Shangri-La hotels at Pacific Place and a 26.67% interest in the Novotel Citygate and The Silveri Hong Kong - MGallery in Tung Chung.

Trading conditions for the managed and non-managed hotels in Hong Kong were adversely affected by travel restrictions and the fifth wave of COVID-19. Business recovered gradually following the relaxation of COVID-19 related measures in mid-April.

Chinese Mainland

Swire Hotels manages four hotels in the Chinese Mainland, The Opposite House, a 99-room luxury hotel at Taikoo Li Sanlitun, EAST Beijing, a 369-room hotel at INDIGO in Beijing, The Temple House, a luxury property with 100 hotel rooms and 42 serviced apartments at Sino-Ocean Taikoo Li Chengdu, and The Middle House, a luxury property consisting of 111 hotel rooms and 102 serviced apartments at HKRI Taikoo Hui, Shanghai. The Group owns 100% of The Opposite House, 50% of EAST Beijing, 50% of The Temple House and 50% of The Middle House. The Group owns 97% of, but does not manage, the Mandarin Oriental at Taikoo Hui in Guangzhou, which has 263 rooms and 24 serviced apartments. The Group owns 50% of another non-managed hotel, The Sukhothai, at HKRI Taikoo Hui in Shanghai, which has 201 rooms.

The performance of our managed and non-managed hotels in the Chinese Mainland was adversely affected by the resurgence of COVID-19 cases, with lower revenue per available room and occupancy recorded in the first half of 2022.

U.S.A.

EAST Miami at the Brickell City Centre development in Miami was sold to a third party in October 2021. It continues to be managed by Swire Hotels.

EAST Miami and Mandarin Oriental, Miami performed well as COVID-19 stabilised, with improved revenue per available room and occupancy.

Swire Restaurants

Swire Hotels operates restaurants in Hong Kong through its hotels. It also operates a standalone restaurant. The Upper House operates The Continental, a European restaurant, at Pacific Place. EAST Hong Kong operates Mr & Mrs Fox, a restaurant with an international menu, at Taikoo Place. PUBLIC café is a standalone restaurant at Taikoo Place.

Outlook

The outlook for our hotels in Hong Kong remains challenging due to COVID-19 and its associated travel restrictions. Recovery of the hotel businesses depends on the full reopening of the border with the Chinese Mainland. Our Chinese Mainland hotels are expected to recover with the gradual relaxation of COVID-19 restrictions. The U.S.A. hotels continue to perform well. The Silveri Hong Kong - MGallery in Hong Kong is being opened in phases.

We are expanding our hotel management business, with a focus on extending our hotel brands outside Hong Kong through hotel management agreements.

Medium Term Note Programme

In 2012, Swire Properties MTN Financing Limited, a wholly-owned subsidiary of the Company, established a US\$3 billion Medium Term Note ("MTN") Programme. The aggregate nominal amount of the MTN Programme was increased to US\$4 billion in 2017. Notes issued under the MTN Programme are unconditionally and irrevocably guaranteed by the Company. At 30th June 2022, the MTN Programme was rated A by Fitch and (P)A2 by Moody's, in each case in respect of notes with a maturity of more than one year.

The MTN Programme enables the Group to raise money directly from the capital markets. Under the MTN Programme, notes may be issued in US dollars or in other currencies, in various amounts and for various tenors.

REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

To the Board of Directors of Swire Properties Limited
(incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the condensed interim financial statements set out on pages 39 to 62, which comprise the consolidated statement of financial position of Swire Properties Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30th June 2022 and the related consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the six-month period then ended, and notes, comprising significant accounting policies and other explanatory information. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial statements to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The Directors of the Company are responsible for the preparation and presentation of these condensed interim financial statements in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed interim financial statements of the Group are not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

There are no significant differences from the last annual financial statements in the basis of segmentation or in the basis of measurement of segment profit or loss.

2. Basis of Preparation

(a) The unaudited condensed interim financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of The Listing Rules of The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

The unaudited condensed interim financial statements are set out on pages 39 to 62 and also include the “Financial Information Reviewed by Auditors” in the Financing section on pages 33 to 37.

The financial information relating to the year ended 31st December 2021 that is included in this document as comparative information does not constitute the Company’s statutory annual consolidated financial statements for that year but is derived from those financial statements.

The non-statutory accounts (within the meaning of section 436 of the Companies Ordinance (Cap. 622) (the “Ordinance”)) in this document are not specified financial statements (within such meaning). The specified financial statements for the year ended 31st December 2021 have been delivered to the Registrar of Companies in Hong Kong in accordance with section 664 of the Ordinance. The Company’s auditor has reported on those specified financial statements. That report was not qualified or otherwise modified, did not refer to any matter to which the auditor drew attention by way of emphasis without qualifying the report and did not contain a statement under section 406(2) or 407(2) or (3) of the Ordinance.

2. Basis of Preparation (continued)

The accounting policies and methods of computation and presentation used in the preparation of the condensed interim financial statements are consistent with those described in the 2021 annual financial statements except for those noted in 2(b) and 2(c) below.

(b) The following revised standards were adopted by the Group effective from 1st January 2022:

Accounting Guideline 5 (Revised)	Merger Accounting for Common Control Combinations
Annual improvements project	Annual Improvements to HKFRSs 2018-2020
Amendments to HKFRS 3, HKAS 16 and HKAS 37	Narrow-scope Amendments

None of the revised standards had a significant effect on the Group's financial statements or accounting policies.

(c) The preparation of the condensed interim financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgements in the process of applying the Group's accounting policies. Those areas involving a higher degree of judgements or complexity and areas where assumptions and estimates are significant to the Group's consolidated financial statements are detailed in the 2021 annual financial statements.

3. Financial Risk Management

In the normal course of business the Group is exposed to financial risks attributable to interest rates, currencies, credit and liquidity.

The condensed interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's 2021 annual financial statements. There have been no changes in the Group's financial risk management structure, policies and procedures since the year end.

4. Revenue

Revenue represents sales by the Company and its subsidiary companies to external customers and comprises:

* These expenses include expenses relating to short-term leases and leases of low-value assets, net of rent concessions received (nil for the six months ended 30th June 2022 and 30th June 2021; year ended 31st December 2021: HK\$1 million). They are directly charged to the consolidated statement of profit or loss and are not included in the measurement of lease liabilities under HKFRS 16.

8. Net Finance Charges

Refer to the table with the heading “Financial Information Reviewed by Auditors” on page 36 for details of the Group's net finance charges.

9. Taxation

	Six months ended 30th June		Year ended 31st December
	2022 HK\$M	2021 HK\$M	2021 HK\$M

Second interim dividend paid on 5th May 2022 of HK\$0.64 per share	-	-	3,744
	1,872	1,814	5,558

The first interim dividend is not accounted for in the condensed interim financial statements because it had not been declared at the period end date.

The Directors have declared a first interim dividend of HK\$0.32 (2021: HK\$0.31) per share for the year ending 31st December 2022. The first interim dividend, which totals HK\$1,872 million (2021: HK\$1,814 million), will be paid on Thursday, 6th October 2022 to shareholders registered at the close of business on the record date, being Friday, 9th September 2022. Shares of the Company will be traded ex-dividend as from Wednesday, 7th September 2022.

The register of members will be closed on Friday, 9th September 2022, during which day no transfer of shares will be effected. In order to qualify for entitlement to the first interim dividend, all transfer forms accompanied by the relevant share certificates must be lodged with the Company's share registrars, Computershare Hong Kong Investor Services Limited, 17th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong, for registration not later than 4:30 p.m. on Thursday, 8th September 2022.

11. Earnings Per Share (Basic and Diluted)

Earnings per share is calculated by dividing the profit attributable to the Company's shareholders for the period ended 30th June 2022 of HK\$4,319 million (30th June 2021: HK\$1,984 million; year ended 31st December 2021: HK\$7,121 million) by the weighted average number of 5,850,000,000 ordinary shares in issue during the period (30th June 2021 and 31st December 2021: 5,850,000,000 ordinary shares).

15. Right-of-use Assets

The Group (acting as lessee) leases land, offices, warehouses and equipment. Except for certain long-term leasehold land in Hong Kong, rental contracts are typically made for fixed periods of 1 to 50 years but may have extension and early termination options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

The recognised right-of-use assets relate to the following types of assets:

	30th June 2022 HK\$M	31st December 2021 HK\$M
Leasehold land held for own use	2,361	2,367
Property	67	75
	2,428	2,442

Additions to right-of-use assets during the six months ended 30th June 2022 were HK\$9 million (30th June 2021: Nil; year ended 31st December 2021: HK\$5 million).

During the six months ended 30th June 2022, total cash outflow for leases was included in the consolidated statement of cash flows as (a) interest paid of HK\$9 million (30th June 2021: HK\$9 million; year ended 31st December 2021: HK\$18 million) under “operating activities”, (b) payment for short-term and low-value assets leases of HK\$16 million (30th June 2021: HK\$15 million; year ended 31st December 2021: HK\$32 million) under “operating activities” and (c) principal elements of lease payments of HK\$33 million (30th June 2021: HK\$35 million; year ended 31st December 2021: HK\$72 million) under “financing activities”.

Notes:

The levels in the hierarchy represent the following:

Level 2 – Financial instruments measured at fair value using inputs other than quoted prices but where those inputs are based on observable market data.

Level 3 – Financial instruments measured at fair value using inputs not based on observable market data.

There were no transfers of financial instruments between the levels in the fair value hierarchy.

18. Fair Value Measurement of Financial Instruments (continued)

The change in level 3 financial instruments for the period ended 30th June 2022 is as follows:

	Financial assets at fair value through profit or loss	Put option in respect of a non-controlling interest
	HK\$M	HK\$M
At 1st January 2022	439	551
Translation differences	-	3
Additions	21	-
Distributions during the period	-	(12)
Change in fair value recognised as net finance charges*	-	27
At 30th June 2022	460	569
 *Including unrealised losses recognised on balances held at 30th June 2022	 -	 27

There has been no change in valuation techniques for Level 2 and Level 3 fair value hierarchy classifications.

The fair value of derivatives used for hedging in Level 2 has been based on quotes from market makers or alternative market participants supported by observable inputs. The most significant observable inputs are market interest rates, exchange rates and yields.

The fair value of unlisted investments classified within Level 3 is determined using a discounted cash flow valuation technique. The significant unobservable inputs used are expected future growth rates and discount rates. Changing these unobservable inputs based on reasonable alternative assumptions would not significantly change the valuation of the investments.

The fair value estimate of the put option over a non-controlling interest in the U.S.A. classified within Level 3 is determined using a discounted cash flow valuation technique and contains a number of unobservable inputs, including the expected fair value of the associated investment property at the expected time of exercise, the expected time of exercise itself and the discount rate used. The expected time of exercise is in 2023 and the discount rate used is 6.3% (31st December 2021: 6.3%).

The investment property's fair value at the expected time of exercise is itself subject to a number of unobservable inputs which are similar to the inputs for the Group's other completed investment properties, including the expected fair market rent and the expected capitalisation rate. If the investment property's expected fair value at the time of exercise is higher, the fair value of the put option would also be higher at 30th June 2022. If the expected time of exercise is later or if the discount rate is higher, the fair value of the put option would be lower. The opposite is true for an earlier time of exercise or a lower discount rate.

18. Fair Value Measurement of Financial Instruments (continued)

(b) Fair values of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial assets and liabilities carried at amortised cost are not materially different from their fair values at 30th June 2022 and 31st December 2021 except for the following financial liabilities, for which their carrying amounts and fair values are disclosed below:

	30th June 2022		31st December 2021	
	Carrying amount	Fair value	Carrying amount	Fair value
	HK\$M	HK\$M	HK\$M	HK\$M
Long-term loans and bonds	20,839	20,413	24,601	25,461

19. Derivative Financial Instruments

The Group uses derivative financial instruments solely for management of an underlying risk. The Group minimises its exposure to market risk since gains and losses on derivatives offset the losses and gains on the assets, liabilities or transactions being hedged. It is the Group's policy not to enter into derivative transactions for speculative purposes.

	30th June 2022		31st December 2021	
	Assets	Liabilities	Assets	Liabilities
	HK\$M	HK\$M	HK\$M	HK\$M

Between 3 and 6 months	29	24
Over 6 months	24	34
	378	396

There is no concentration of credit risk with respect to trade and other receivables, as the Group has a large number of customers.

The Group does not grant any credit terms to its customers, except to corporate customers in the hotel division where commercial trade credit terms are given.

21. Amount Due from Immediate Holding Company – Swire Pacific Limited

30. Contingencies

Guarantees outstanding at the end of the period in respect of bank loans and other liabilities of joint venture companies totalled HK\$4,014 million (31st December 2021: HK\$3,643 million). Bank guarantees given in lieu of utility deposits and other liabilities totalled HK\$78 million at the end of the period (31st December 2021: HK\$76 million).

31. Related Party Transactions

There is an agreement for services ("Services Agreement"), in respect of which John Swire & Sons (H.K.) Limited ("JS&SHK"), an intermediate holding company, provides services to various companies in the Group and under which costs are reimbursed and fees payable. In return for these services, JS&SHK receives annual fees calculated as 2.5% of the Group's relevant consolidated profit before taxation and non-controlling interests after certain adjustments. The Services Agreement (as amended and restated on 9th August 2019) was renewed on 1st October 2019 for three years expiring on 31st December 2022. For the six months ended 30th June 2022, service fees payable amounted to HK\$107 million (30th June 2021: HK\$101 million). Expenses of HK\$51 million (30th June 2021: HK\$49 million) were reimbursed at cost; in addition, HK\$43 million (30th June 2021: HK\$42 million) in respect of shared administrative services was reimbursed.

31. Related Party Transactions (continued)

Under a tenancy framework agreement (the “Tenancy Framework Agreement”) between JS&SHK, Swire Pacific Limited and the Company dated 14th August 2014, members of the Group enter into tenancy agreements with members of the JS&SHK group and members of the Swire Pacific group from time to time on normal commercial terms based on prevailing market rentals. The Tenancy Framework Agreement was renewed on 1st October 2021 for a further term of three years expiring on 31st December 2024. For the six months ended 30th June 2022, the aggregate rentals payable to the Group by members of the JS&SHK group and members of the Swire Pacific group under tenancies to which the Tenancy Framework Agreement applies amounted to HK\$57 million (30th June 2021: HK\$56 million) and HK\$22 million (30th June 2021: HK\$22 million) respectively.

The above transactions under the Services Agreement and the Tenancy Framework Agreement are continuing connected transactions, in respect of which the Company has complied with the disclosure requirements of Chapter 14A of the Listing Rules.

The following is a summary of significant transactions between the Group and related parties (including transactions under the Tenancy Framework Agreement), which were carried out in the normal course of the Group's business, in addition to those transactions disclosed elsewhere in the financial statements.
